

# Specification Sheet

Model # SA-25WB-LPE

Provides the same performance as the high profile base, when additional clearance is not necessary. Tucks in closer to the roof to be less conspicuous and more resistant to high winds. Only product certified through Dade County and approved for high winds. (160 mph)

## Technical Information

### Weight

Fan Weight: 19 lbs / 8.61 kg

Fan Packaged: 27 lbs. / 12.24 kg

### Performance

Air Flow Rate:  
900 to 1200 CFM  
Depending on solar exposure

Ventilation: Up to 1250 sq.ft.  
Attic must support intake air  
for best performance

### Electrical

Solar Panel: 30 watt, 150 cfm,  
17 to 22 DC, 1.25 amp, 36  
mono-crystalline cell, solar  
cells with black back sheet

Motor: Solaro Max Aire  
Brushless DC Motor, 10-22VDC

### Material

Housing System: Spun Formed,  
Aircraft Grade Aluminum  
Fan Blade: 12" Aluminum, Factory Balanced  
Mesh Screen: Stainless Steel, 1/4"  
Mesh, Rodent Control  
Wiring: 18 Gauge Copper Conductors  
with PVC Insulation

### Housing & Flashing System

Aircraft grade, spun-formed  
aluminum for the utmost  
quality protection  
Inner housing system is  
aerodynamically designed  
to produce the highest  
possible radial air exhaust  
Powder coated outer shell

### Solaro Max Air Motor

Maximum Efficiency Yield Technology

Brushless Electronic Motor with Maximum  
Yield Technology. This new motor technology  
was developed by Solaro Energy - Our  
engineers leveraged lessons learned  
from our original brushless electronic  
motor that we used for over 12 years.  
This new motor technology offers about  
30% better efficiency and air moving  
performance, with an amazing 100,000  
hours average motor run time!

## Components

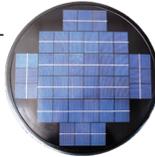

### Mesh Screen

Constructed specifically for  
the Solaro Aire  
1/4" mesh screen keeps  
animals and rodents  
out while allowing  
maximum air exhaust  
Stainless Steel

### Solar Panel

30 watt, 150 cfm, 1.25 amp  
proprietary, high purity, mono-  
crystalline cell solar panel  
Weather proof in the most  
severe conditions  
High transparent, low iron  
tempered glass  
Built for maximum performance and safety

### Fan Blade

Specifically designed for the  
Solaro Aire solar powered  
ventilation system  
12" - 5 blade aluminum fan,  
aerodynamically optimized  
blade to improve airflow  
Operates whisper quiet  
throughout the day

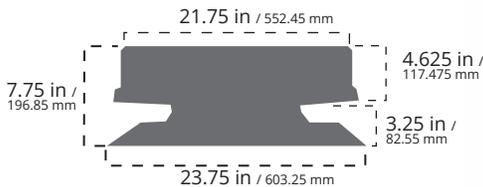

### Motor & Fan Mount

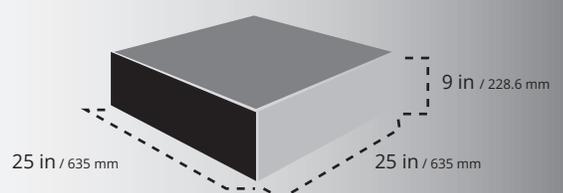

The Max Aire motor is  
mounted under the  
aluminum air  
deflector. Keeping it  
out of the air stream

## Dimensions & Weight

12.5 in / 317.5 mm

**Important Note:** The Solaro Aire Attic Fan Ventilation System is 100% fire proof and all electrical components are hidden under the air diverting cowling creating an extremely safe and efficient ventilation system

**Limited Lifetime Warranty** - See warranty details for additional information.
